

NICOLÁS ANDRÉS GÓMEZ RAMÍREZ

ELECTRONIC ENGINEERING STUDENT

CONTACT

☎ (+57) 3172695193

✉ nandres-gomez@javeriana.edu.co

📍 Bogotá, Colombia

TECHNICAL SKILLS

- Programming: Python, C, C++
- HDL & Simulation: VHDL, ModelSim
- Embedded Systems: Microcontrollers, Arduino, Raspberry Pi, MPLAB
- Hardware Design: Altium Designer, Quartus
- Circuit Simulation: LTspice
- Simulation & Data: MATLAB
- Prototyping & Fabrication: 3D Design & Printing
- Operating Systems: Linux
- Web (basic): HTML

LANGUAGES

- Spanish – Native
- English – Upper-Intermediate (Berlitz English Program, 2026)

PROFILE

Electronic Engineering student with a strong background in embedded systems, C/C++ programming, and hardware design. Experience in Arduino-based systems, PCB development, digital system design, and rapid prototyping. Interested in machine learning, signal processing, and IoT applications for intelligent and connected embedded devices.

EXPERIENCE

Teaching Assistant - Processor-Based Systems Design Feb 2026 – Present
Pontificia Universidad Javeriana, Bogotá, Colombia

- Supported the development of course projects involving embedded systems and microprocessors.
- Designed and developed custom PCBs to enable hands-on experimentation with course concepts.
- Provided technical support during office hours, resolving questions related to embedded C, FSMs, interrupts, and timing analysis.
- Assisted students in understanding complex digital system architectures and implementation strategies for embedded applications.

Teaching Assistant - Arduino 101 Jan 2025 – Jun 2025
Pontificia Universidad Javeriana, Bogotá, Colombia

- Guided undergraduate students in the use of Arduino platforms, introducing sensors, actuators, and peripheral devices.
- Mentored students in the development of Arduino-based projects, from system design to implementation.
- Provided technical support in C programming and embedded systems, including debugging, memory management, and code optimization.

Academic Tutor - Programa Tu Sep 2024 – Present
Progrma Tu, Bogotá, Colombia

- Delivered one-on-one tutoring in physics, mathematics, critical thinking, and language to students at Instituto Alberto Merani.
- Accumulated 22+ hours of tutoring sessions under a professional services contract.

EDUCATION

Bachelor of Science in Electronic Engineering Jan 2023 – Present
Pontificia Universidad Javeriana, Bogotá, Colombia
Expected Graduation: 2027

GPA: 4.25/5.0

High School Diploma 2012 - 2022
Instituto Alberto Merani, Bogotá, Colombia
